GREAT WESTERN PARK METROPOLITAN DISTRICT NO. 2

2008 Budget Message

Introduction

The budget reflects the projected spending plan for the 2008 fiscal year based on available revenues. This budget provides for the general operation of the District and facilitation of capital project expenditures.

The District formed in December 2008 for the purpose of providing design, financing, acquisition, and construction of certain infrastructure improvements.

Budgetary Basis of Accounting

The District uses funds to budget and report on the financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions. The various funds determine the total District budget. All of the District's funds are considered Governmental Funds and are reported using the current financial resources and the modified accrual basis of accounting. Revenues are recognized when they are measurable and available. Revenues are considered available when they are collectible within the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures, other than the interest on long term obligations, are recorded when the liability is incurred or the long-term obligation paid.

Fund Summaries

General Fund is used to account for resources traditionally associated with government such as property taxes, specific ownership tax and expenditures which include District administration, legal services, and other expenses related to statutory operations of a local government. The General Fund's primary source of revenue is developer advances.

Capital Projects Fund is used to account for revenues and facilitate expenditures for capital projects. The primary source of revenue is developer advances.

Emergency Reserve

As required under Article X, Section 20 of the Colorado Constitution, the District has provided for an Emergency Reserve in the amount of 3% of the total fiscal year expenditures in the General Fund.
