## **2019 Budget Message**

### **Introduction**

The District was formed in December 2008 for the purpose of providing design, financing, acquisition, and construction of certain infrastructure improvements.

The 2019 budget was prepared in accordance with the Local Government Budget Law of Colorado. The budget reflects the projected spending plan for the 2019 fiscal year based on available revenues. This budget provides for the general operation of the District and facilitation of capital project expenditures.

The Board of Directors authorized adjustment of the District mill levy in accordance with the Colorado Constitution, Article X, Section 3 (the “Gallagher Adjustment”). The Gallagher Adjustment and the District’s Service Plan authorize an adjustment of the Maximum Debt Mill Levy in the event that the method of calculating assessed valuation is changed after January 1, 2001, by any change in law, change in method of calculation, or in the event of any legislation or constitutionally mandated tax credit, cut, or abatement. The adjustment to the Maximum Debt Mill Levy is determined by the Board so that, to the extent possible, the actual tax revenues generated by the mill levy, as adjusted, are neither diminished nor enhanced as a result of such changes. The Colorado General Assembly passed House Bill 17-1349 setting the ratio of valuation for assessment for real residential property at 7.2% (decreased from 7.96%) for property taxes commencing on and after January 1, 2017, until the next property tax year that the General Assembly determines to adjust the ratio of valuation for assessment for residential real property. The Gallagher Adjustment for the District allows for a total mill levy imposition, as noted in the following paragraph, so the District’s revenue is neither diminished nor enhanced.

The District’s assessed value increased by \$3,628,311 to \$13,180,821. The District certified a 2019 mill levy of 52.758 mills, with 5.392 mills dedicated to the General Fund, 47.347 mills to the Debt Service Fund and 0.019 mills for Refunds and Abatements.

### **Budgetary Basis of Accounting**

The District uses funds to budget and report on the financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain governmental functions. The various funds determine the total District budget. All of the District’s funds are considered Governmental Funds and are reported using the current financial resources and the modified accrual basis of accounting. Revenues are recognized when they are measurable and available. Revenues are considered available when they are collectible within the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures, other than the interest on long term obligations, are recorded when the liability is incurred or the long-term obligation paid.

**Fund Summaries**

**The General Fund** is used to account for resources traditionally associated with government such as property taxes, specific ownership tax, and expenditures which include District administration, legal services, and other expenses related to statutory operations of a local government.

**The Debt Service Fund** is used to account for principal and interest and associated costs for long term debt. The primary revenue source is property taxes along with specific ownership taxes and interest income. In 2016 the District issued 2016A General Obligation Bonds and 2016B Subordinate Cash Flow Bonds. The combined schedule of principal and interest is presented below:

**Emergency Reserve**

As required under Article X, Section 20 of the Colorado Constitution, the District has provided for an Emergency Reserve in the amount of 3% of the total fiscal year revenues in the General Fund.
